Tax Optimisation Through A Trust

February 2015

PREFACE

The following brochure is meant to be a short summary of the Thai Business Law.

We are aware of the fact that it can only be the first step to describe the very complex forms of doing business in Thailand. However, we hope that this information can be helpful for you in your further decisions.

Generally speaking, Thai business and the exact procedures of setting up a company are often quite similar to the procedures you are familiar with, but, as you know, important details can be different. Thus, we advise you to proceed carefully and with far-sightedness.

We would be glad if this brochure meets your interests.

Please allow us to inform you that despite all our efforts we cannot accept liability for this brochure and its contents and we reserve all rights derived from it.

LORENZ & PARTNERS thank you very much for your interest in our work.
